Product owners, software developers, and Scrum Master are set and ideally don't change over time; the critical part is the Release Manager role you need to define here								

Goals	Acquire new skills
	Produce a functioning and valuable product
Meeting norms	We show up to the team meeting on time
	We respect each others opinions
Working norms	Produce clean code
	We respect other people's work
Coordination norms	Task responsibilities are well defined
	We balance workload among the team
Communication norms	We check our communication platform at least once every workday
	We communicate constructively
Consideration norms	We discuss issues openly
	We vote in case we can't reach a consensus
Cont. improvement norms	We consider the happiness index to monitor team motivation
	We encourage critique and improvement efforts
Rewards	We praise each others work
	We treat ourselves to a sweet of choice for good work
Sanctions	10 push-ups in front of the camera
	We criticize objectively

How to play planning poker

- 1. Everyone type their number into their value field, don't hit return yet
- 2. Someone, perhaps a product owner, count down 3.. 2.. 1..
- 3. Then, everyone hit return to submit their value
